

CSCI 2132

Software Development

Lab 9:

Assignments and Make Utility

Instructor: Vlado Keselj

Faculty of Computer Science

Dalhousie University

Lab Overview

- If you still need to work on Assignment 6, it should be your highest priority to finish it
- Assignment 7 is out, as well as Practicum 5, and you can work on them
- One of the questions in Assignment 7 is finishing material in this lab, which you can find further, and you can work on it as well.

Step 1: GitLab Project and SSH Setup

- Web login to GitLab and open csci2132 project
- Login to bluenose
- mkdir and go to `~/csci2132/git`

Step 2: Running make commands

Step 3: Using make variables

- Edit Makefile according to the instructions

Step 4: Using `gdb`

Step 5: Other variations of the `FLAGS` variable

Step 6: Program `sortlist.c`

Step 7: Test cases

- Submit all files to GitLab
- You have finished the lab
